DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art issued to Hendricks '853 & '585 fails to teach a system and a corresponding method for distributing programming, wherein a user of the system may be granted a program control over particular program segment, and the user authorization includes a record of number of times the user has previously been given program control over a particular program segment together with a limit on the number of times the user is authorized for the program control. Both Hendricks' references mainly concern to provide a fixed programming schedule to the user, and the user is allowed to control the selection of display menu, i.e., a passive control of programs using the menu; meanwhile, the present invention allows the user or grant the user to actively control programs, i.e., Fast Forward, Rewind or Pause, over a particular program segment by keeping track of record in the system and granting a number of times for the user to perform program control under the authorization of the system as cited in claims 1, 15, and 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
